

SERVICE STATIONS

Alvic® Feel the Tech Power

IMMOTIC CONTROL SYSTEM FOR THE UNATTENDED INSTALLATION OF THE SUPPLY UNIT

IPO4 SYSTEM™

01. Automation

Everything you need to comply with the MI-IP04 regulation in your unattended service station.

02. Productivity

Automatic integration to unify processes and optimize resources, thanks to the presence of an Alvic system in the supply unit.

03. Control

Manage alarms, techniques and manoeuvres. Stop and restart, pump control, leaks, emergency button, etc.
